# Unlocking the Promise of Adaptive Radiotherapy

Radiotherapy is evolving. The time has come to embrace adaptive radiotherapy and optimize clinical utilization.

Adaptive radiotherapy (ART) has long been seen as the ideal solution to one of the field's greatest challenges: the ever-changing nature of both the target and the patient. ART empowers you to respond to change.

Accuray delivers groundbreaking innovations **making ART possible** and practical for every practice and every patient.

With the Accuray Stellar™ Solution, Accuray reimagines personalization in radiotherapy.

*“Adaptive radiotherapy is not just a technique—it’s a philosophy. It’s about seeing the patient not as a static plan, but as a dynamic story”*

— Dr. Michael Sharpe, known for his work in ART and imaging-guided therapy 

*“Adaptive radiation therapy is an evolving paradigm that seeks to address deficiencies by accounting for ongoing changes in the course of treatment.”*

— Dr. Arjun Sahgal, Sunnybrook Health Sciences Centre 

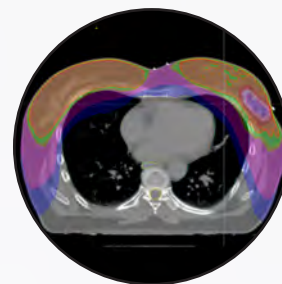

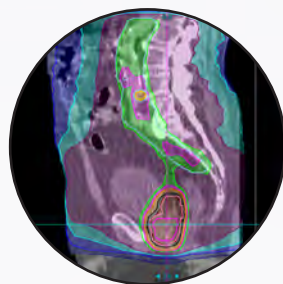

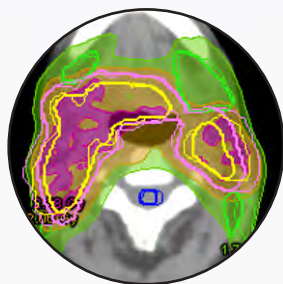

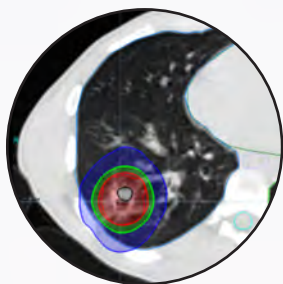

**Accuray Stellar™**

# Built to evolve with your patient.

Accuray Stellar is a configuration of the Radixact® Treatment Delivery System.  
The Accuray Stellar System and Adapt LTE are currently available for the US market and are subject to international regulatory approval or licensing processes such that the availability of these products may vary according to geographical location.

The Accuray Stellar™ Solution reimagines personalization in radiotherapy. This solution provides the foundation for **adaptive care** that evolves with each patient's needs. Built on **diagnostic-like imaging of ClearRT®** helical kVCT, this CT linac provides the powerful foundation that makes its adaptive suite possible. **Choose from real-time dynamic delivery to offline adaptive radiotherapy**, and learn, trial and evaluate with **Adapt LTE\* powered by Accuray Cenos™**. The Accuray Stellar Solution empowers you to implement the right workflow for the right patient to continue to advance the quality of care provided.

#### TAILORED

- Tailor treatments to changing anatomy
- Deliver SBRT and IMRT with confidence
- Enable greater precision

*“Adaptive radiation therapy is poised to revolutionize the world of radiation therapy.”*

—Dr. Tim Johnson, Hartford Healthcare Cancer Institute

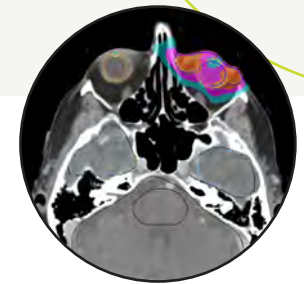

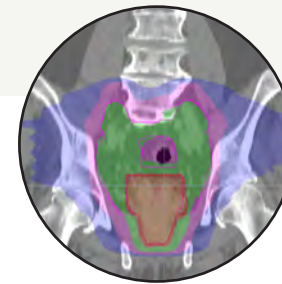

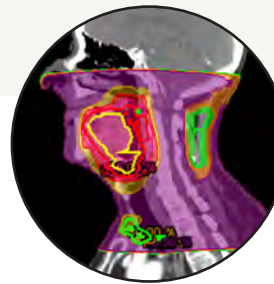

Adaptive Radiation Therapy: A Dynamic Approach to a Dynamic Challenge, Radiation Therapist Journal [🔗](#)

Making every  
moment count.

*“ART represents a transformative approach in the field of radiation oncology, harnessing the power of advanced imaging and AI to adapt to the dynamic nature of patient anatomy during cancer treatment. ...ART significantly enhances the precision of radiation delivery, optimizes therapeutic outcomes, and minimizes damage to healthy tissues.”*

—Dr. Olga Maria Dona Lemus, Department of Radiation Oncology,  
University of Rochester, Rochester, New York [🔗](#)

Efficiency is more than speed—it's about delivering the right treatment at the right time. The Accuray Stellar™ Solution empowers you to scale from **routine treatments to complex protocols, with beam-on durations as short as 5–9 minutes**. Its **streamlined workflows** and seamless integration with Oncology Information Systems ensure that personalization never slows you down..

#### **EFFICIENT**

- SBRT in as little as 5–9 minutes\*
- Integrated adaptive workflows
- Predictive monitoring for optimized performance

\* Data on file. Accuray internal study.

# Support that goes beyond the system.

Advancing care takes more than technology—it takes a team. The Accuray Stellar™ Solution is backed by **premium services**, helping you to adopt workflows, drive utilization, and optimize performance. From training to service, Accuray is there every step of the way.

#### COMPREHENSIVE

- Expert-guided enablement program
- Benefit from an implementation and adoption program
- Access on-demand support to help optimize your system's performance

*“Adaptive radiation therapy is poised to revolutionize the world of radiation therapy.”*

—Dr. Tim Johnson, Hartford Healthcare Cancer Institute

#### Important Safety Information:

Most side effects of radiotherapy, including radiotherapy delivered with Accuray systems, are mild and temporary, often involving fatigue, nausea, and skin irritation. Side effects can be severe, however, leading to pain, alterations in normal body functions (for example, urinary or salivary function), deterioration of quality of life, permanent injury, and even death. Side effects can occur during or shortly after radiation treatment or in the months and years following radiation. The nature and severity of side effects depend on many factors, including the size and location of the treated tumor, the treatment technique (for example, the radiation dose), and the patient's general medical condition, to name a few. For more details about the side effects of your radiation therapy, and to see if treatment with an Accuray product is right for you, ask your doctor. Accuray Incorporated as a medical device manufacturer cannot and does not recommend specific treatment approaches. Individual results may vary.
